Glenn D Savage, REHS, Environmental Health Director

Environmental Health Division, SNHD

PO Box 3902

Las Vegas NV 89127

Dear Mr. Savage:

The proposed regulation of licensed massage therapists in Clark County through the Southern Nevada Health District is a concern to me.

I am an Independent Massage Therapist in the \_\_\_\_\_, NV, jurisdiction(s), and I am currently regulated by the Nevada State Board of Massage Therapists' NACs and NRS.640c. There are too many similarities between the proposed SNHD regulation and NRS.640c and the NSBMT's NACs for me to be able to accept without written opinion that I will be under the jurisdiction of both for the same/similar rules.

I am regulated by the NV Secretary of State, Nevada State Board of Massage Therapists, local business license department(s), liability insurance company, professional and certification organizations and pay fees and/or taxes to all. Another similarly-oriented regulating body is not "fair government" and creates a further financial burden for me and my business & customers.

Sincerely,

[signed]
